

Randall, *Dark Matter and the Dinosaurs*, Chs. 20, 21, Conclusion
Wesley Advocates 25 February 2018

Searching for the Dark Disk

What is dark life? What evidence exists for dark life? Where might dark life exist?

What do we hope to learn from the GAIA satellite? How soon?

What do we learn from Jan Oort about star velocities as they move in and out of the galactic plane?

Dark Matter and Comet Strikes

Review “The Scenario” as Randall’s recap of what she’s spent 350 pages telling us. What do you find most important here?

Conclusion: Looking Up

How does Randall’s argument draw together various sciences?

How might this study, this knowledge help humankind in future?

What do we take away from this reading? Where is God?
